Career Edge-Knockdown the Lockdown

**(TCS)**

📅 July 2022

## PROJECTS

### College App(USER+ADMIN)/institution

- Developed an Android application for college administration that served as a comprehensive platform for both users and administrators.
- Implemented Android architecture with Live-Data for efficient data management and real-time updates. Used Java, HTML, CSS for a visually appealing interface.
- Integrated Firebase Database for seamless data retrieval,upload,deletion,and updating functionalities.
- Leveraged various Android components like setOnClickListener, CardView and Toast to enhance user interaction and experience.
